

SUSTAINABILITY

We believe in the sustainability and wellness of our planet and our people.

Zintra products are made from 100% recyclable materials. It meets the Global Recycled Standard and is Red List Free.

Transparency is important to us. It's why Zintra has been verified by HPD and Declare. Zintra products contribute to many material and wellness credits for Green Building Certifications including LEED, Living Building Challenge, and International WELL Building Institute certifications.

Reducing noise levels, minimizing indoor air pollutants, easy cleaning and a Class A fire rating are just a few of the reasons that Zintra is the perfect material for the green buildings of today and tomorrow.

SUSTAINABLE INITIATIVES:

NOW featuring recycled content:

60% post-consumer recycled content from PET bottles / 35% pre-consumer recycled content PET chips / 5% PLA polylactic acid, a bio-based material

Air Quality

CDPH Standard Method V1.2 means our products are free of formaldehyde with low VOC.

Noise Reduction

An NRC rating of 0.45-0.9, almost 20 times that of a standard drywall.

Fire Safety

Class A fire rating per ASTM E84, so there's no limit to where it can be used architecturally.

Carbon Footprint

Regional manufacturing minimizes carbon-intensive transportation.

Waste Reduction

Manufacturing offcuts are used in product packaging and protection.

Give Back

At end of life, we'll help you identify local recyclers or charities to give Zintra a second life.
