

Zintra Acoustic Blades

Installation Instructions

FINISHED ASSEMBLY

* Design shown as an example only Instructions apply to all Blade designs.

PARTS LIST

CROSSRUNNERS

END CAP

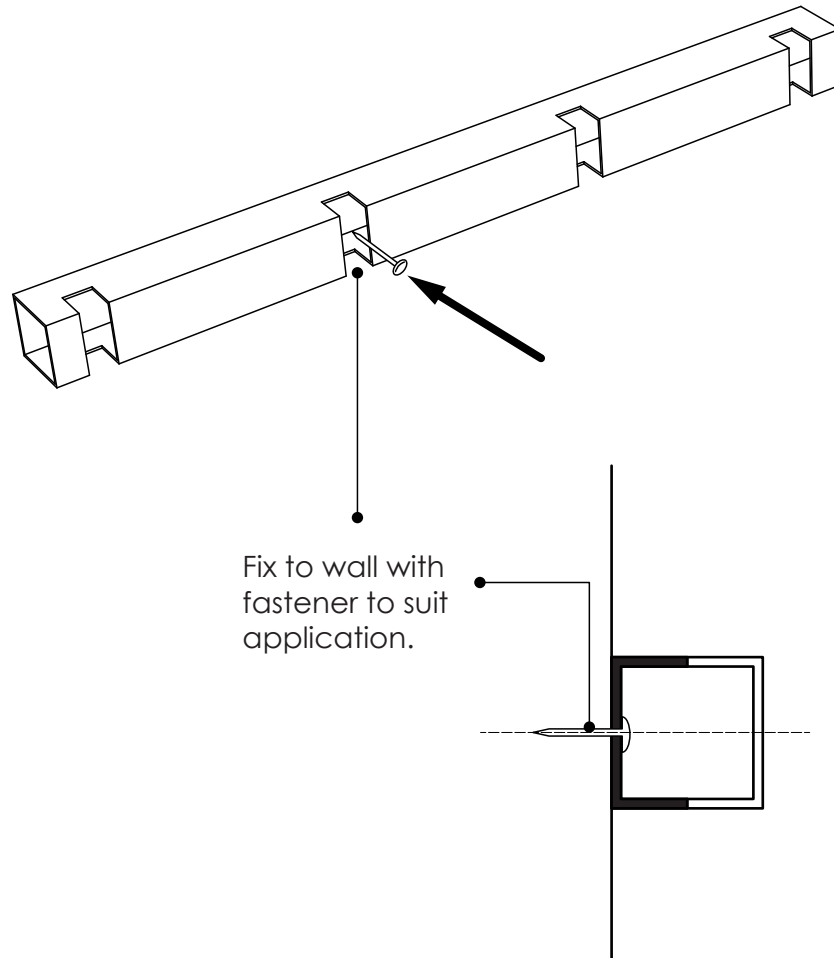

BLADES - as per specified design

Zintra Acoustic Blades Installation Instructions

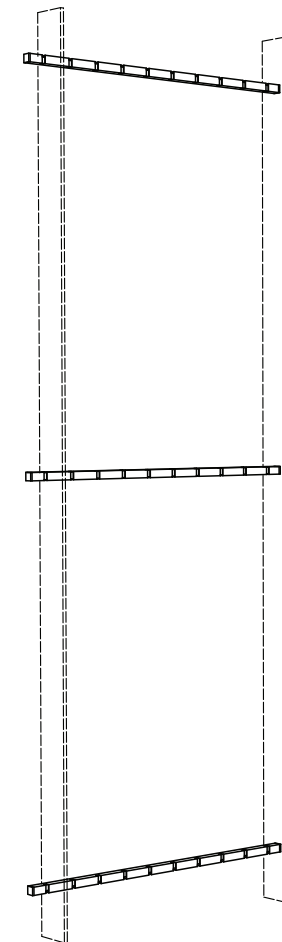

STEP 1

Secure Blade crossrunner to wall in the suitable location for your site.

STEP 2

Fix crossrunners in parallel - Fit end blades temporarily to accurately position crossrunners.

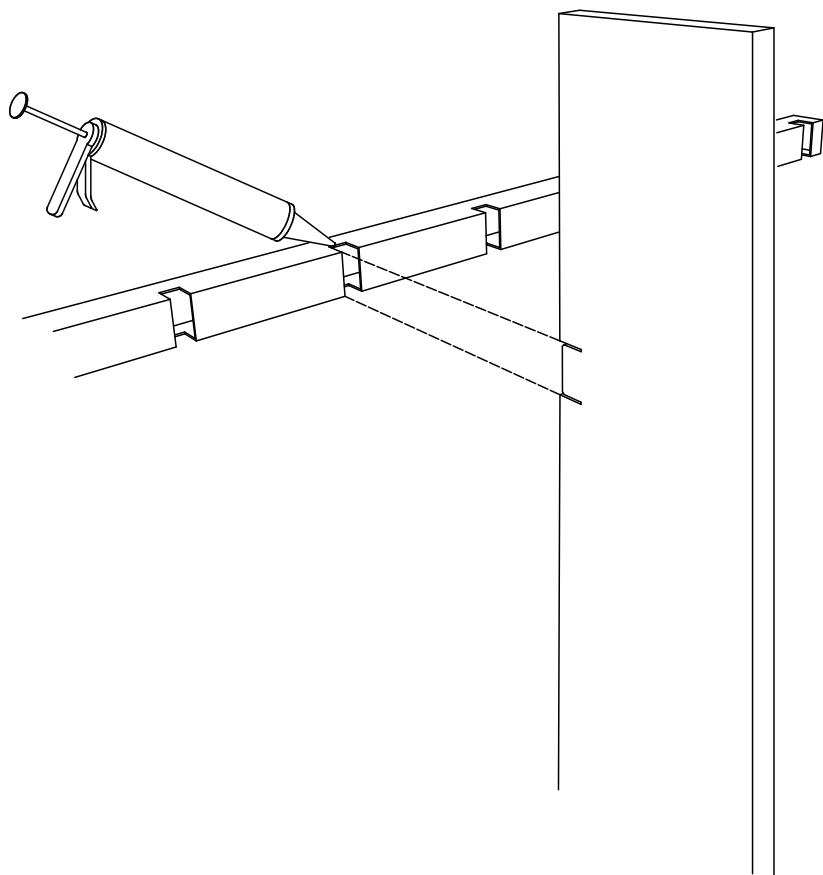

Zintra Acoustic Blades

Installation Instructions

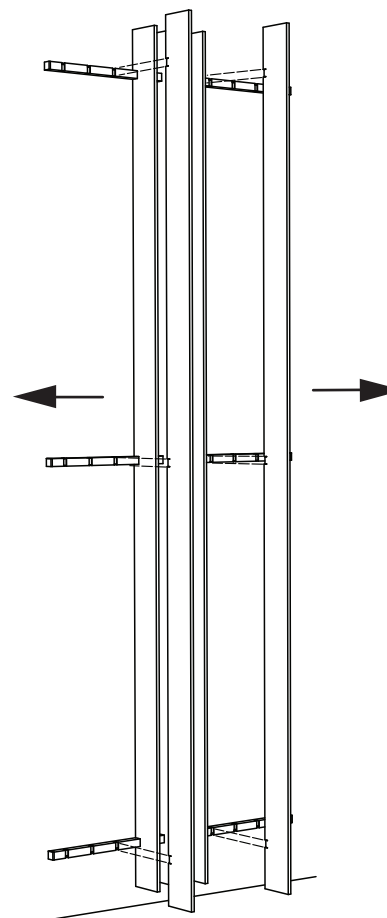

STEP 3

For the most secure installation, apply silicone (not supplied) to inside of extrusion prior to fixing off blades. Ensure even application.

STEP 4

Fix Blades off starting from the center. Wipe away excess silicone with a damp cloth. Note: Layout the blades for your system prior to installing to assure you have them in the correct order for the desired pattern.

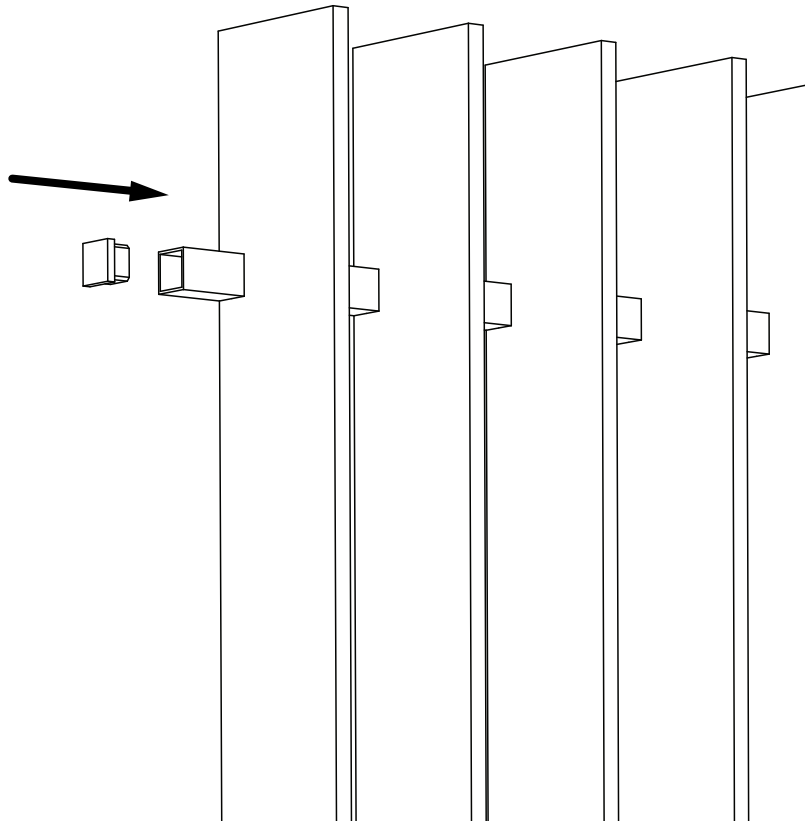

Zintra Acoustic Blades

Installation Instructions

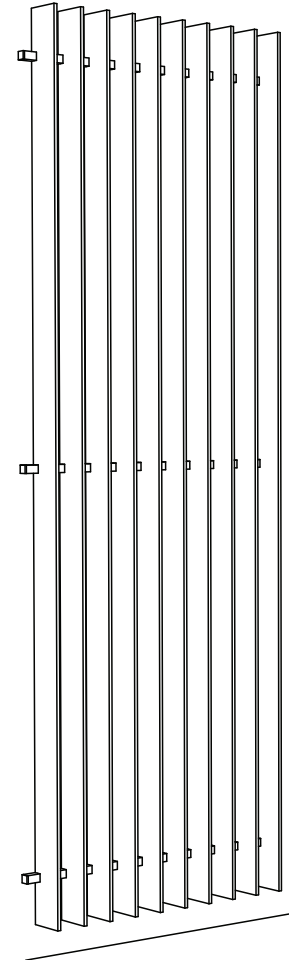

STEP 5

Fix end caps to extrusion.

STEP 6

Allow silicone to cure as per manufacturer's instructions.
