- 188 Etch Tiles
- 196 Pattern Tiles

### 204 Hardware

- 206 Floor To Ceiling Screens
- 208 Sliding Screens
- 210 Hardware Options
- 214 Powder Coat Colors

# Capabilities

Zintra Acoustic Solutions delivers design-driven, top-tier acoustic solutions. With an emphasis on refining spaces, our approach centers on improving sound quality, curbing echoes and background noise through the integration of acoustic science into our product development.

Our expert team, based in Australia and the USA, is dedicated to producing products that not only meet global standards but also precisely address your acoustic needs.

## Building a Sustainable Future

We are dedicated to ongoing investment in innovative technologies and materials that pave the way for a sustainable future.

Made from 100% recyclable materials and certified by Declare, GREENGUARD, and HPD, Zintra stands out as the perfect material for the green buildings of today and tomorrow, with its ability to reduce noise levels, minimize indoor air pollutants, and a Class A fire rating.

Our commitment to the environment goes hand in hand with our dedication to human well-being and thoughtfully designed spaces that promote health and comfort.

## Made from 100% recyclable materials

**60%** Post-Consumer recycled content from PET bottles

**35%** Pre-Consumer recycled content from PET chips

**5%** PLA - a bio-based material

Low levels of volatile organic compounds

Contains no formaldehyde

Global Recycling Standard

Declare.

# Superior Acoustics

Hybrid working, collaborative learning and evolving social dynamics have driven the need for adaptable open spaces. These spaces often come with poor acoustics, which make it hard to communicate and difficult to concentrate.

The properties of a space - its dimensions, the materials used, and how they are applied - define how sound is transmitted.

The ability of a material to absorb sound is critical to good acoustics, which is calculated as the Noise Reduction Coefficient (NRC), Sound Absorption Average (SAA), and Weight Sound Absorption Average (aw). Our products are independently tested by third-party test labs that have been certified by The American Society for Testing and Materials (ASTM) and by the International Standards Organisation (ISO).

Zintra products have been tested according to ASTM C423-17 and received NRC ratings ranging from 0.45 – 1.10, depending on its depth, shape and the distance it's installed from a surface.

## Your Acoustic Partner

### Acoustic Consulting Services

Leverage the expertise of our skilled in-house acoustic consultancy to develop creative and quality acoustic solutions tailored to the specific acoustic demands of your space.

-  Inhouse acoustician
-  Expert guidance
-  Tailored solutions
-  Innovation and creativity

### Project Customization

The Zintra Acoustic Solutions range is fully customizable to meet your design requirements, providing flexibility for any project. Our experienced team of specialist designers, project managers and production are ready to guide you through the process to deliver the best outcomes for your project.

-  Customization
-  Branding Opportunities
-  Bespoke Design
-  Expert Support

### Enhanced Project Execution with Work Shop Drawings

Our Work Shop Drawings (WSDs) deliver accuracy and clarity, ensuring manufacturing is precise to specifications and streamlines production with clear guidelines to enhance efficiency. Serving as a quality control benchmark, WSDs guarantee that each project detail meets the highest standards. Additionally, our adherence to industry standards and regulations with our WSDs helps you navigate compliance smoothly and avoid potential issues.

-  Clarity and Precision
-  Quality Control
-  Streamlined Production
-  Regulatory Compliance

### Acoustic Solutions for Diverse Applications

Zintra Acoustic Solutions offers a wide range of products and designs including Panels, Screens, Tiles, Ceiling Baffles and features for various industries including Commercial, Hospitality, Education and Healthcare.

### Domestic Production

Zintra Acoustic Solutions is proud to be fabricated locally for improved quality control, reliability, and quick turnaround. Efficient local processes guarantee fast delivery without sacrificing quality.

## Color Never Sounded So Good

The Zintra Panel colors have been developed with versatility in mind. Craft standalone color statements or select a combination of complementary and contrasting tones for indoor spaces that look exceptional and sound extraordinary.

## Earthy Elegance

## Coastal Harmony

## Bold Statements

## Warm and Cozy

# Zintra Print

Elevate your acoustic panels with our Zintra Print options, blending functionality and artistry. Designed to bring a unique style to your interior space, our offerings – Premium Material, Premium Wood, Print Art, and Print Color – ensure a personalized aesthetic that crafts an environment not only to be seen but truly felt.

# Premium Wood

Zintra Premium Wood provides a photorealistic, lightweight, and easy-to-fabricate alternative to real wood. It features prints of twelve artisan species from the US and around the world, showcasing rich tones and natural grains that range from mild to wild.

This collection helps bring the outdoors in, allowing you to create warm, inviting, and acoustically minded commercial spaces that connect people with nature. Coordinating base colors have been perfectly paired to enhance a sense of depth and ensure print crispness and clarity that is second to none.

Refer to **page 13** for swatches.

# Zintra Print Art

## 1. Choose your Design

Over 300 curated designs in multiple colorways are provided as the inspiration to print on your chosen base color. Zintra Print Art includes a Materials collection, featuring Timber, Metal, Stone and Concrete prints, and an Artwork collection, incorporating Abstract, Botanical and Geometric designs. In addition, we have partnered with internationally renowned artists to provide unique content for your space.

## 2. Choose your Base

Print onto the entire Zintra Acoustic 1/2" (30 colors) and 1" (6 colors) panel range. While the color of the Zintra base will impact the color of the print, it's easy to print a layer of white before the color layer to deliver color accuracy.

See p.40 and 41.

## 3. Define your Space

The Zintra Print Art offer is made to order to suit your project. Provide us with the sizing and layout required to specifically fit your space and the Zintra Print panels will be provided to size, ready for install.

Available in over 300 designs

### Applications

Walls

Ceilings

Product: Zintra Print Art Metals, Stone & Concrete,  
Vintage Bronze | Substrate: Frost

Product: Zintra Print Art Timber,  
Wooden Herringbone | Substrate: Frost

# Zintra Print Color

## 1. Choose your Base

Frost and Pebble have been chosen to offer contrasting base panels in both 1/2" and 1". Frost gives a clean, crisp aesthetic with the most accurate color matching, while Pebble offers a softer, more muted aesthetic with a heathered effect.

## 2. Choose your Color

We've carefully chosen a broad, contemporary color palette to expand the range. 56 Studio colors reflect the latest interior design trends, while 10 Spirit colors are bolder and more vibrant, to showcase your school or team brand.

See p.40 and 41.

## 3. Create your Own

If one of the 66 Zintra Print colors doesn't quite meet your brief, it's quick and easy to create your own. Simply give us the Pantone color you're trying to match, and we will create a sample for you.

## Available in 66 designs Applications

# Studio Colors

56 soft colors to reflect the latest interior design trends.

Pinot	Currant	Rubine	Ceruse
Rhubarb	Rosewood	Mulberry	Mauvelous
Crepe	Papaya	Terracotta	Creamsicle
Buff	Chai	Harvest Moon	Melon
Sunset	Pueblo	Blonde	Mellow
Citron	Avocado	Envy	Spruce
Safari	Sage	Wasabi	Matcha
Pistachio	Artichoke	Carmine	Mojito
Seaweed	Mist	Peacock	Aegean
Pigeon	Azure	Sapphire	Indigo
Maya	Regatta	Surf	Powder
Independence	Plum	Wisteria	Thistle

Oat	Shell	Cinnamon	Mocha
Sepia	Oyster	Sterling	Stone

# Spirit Colors

10 vibrant colors to showcase your school or college.

Gold	Old Gold	Red	Crimson
Green	Dark Green	Lapis	Maroon
Denim	Purple		

# Edge Banding

The Zintra Print range offers the unique ability to create low-volume colored edge banding. The edge banding is available in the full range of Studio and Spirit colors, or we can easily customize the color for you.

Edge banding can be used to match or contrast the printed surface on selected Zintra Acoustic Solutions.

# Zintra Panels

Experience the perfect synergy of acoustic excellence and visual elegance with Zintra Acoustic Panels. Ideal for commercial, hospitality, and institutional projects, Zintra Acoustic Panels offer a diverse range of aesthetics. Crafted from 100% recyclable materials, Zintra Panels boast exceptional sound absorption capabilities for walls, ceilings, and screens.

Product: Zintra Plain Panel  
42. Color: Saffron & Elderberry

## 1/2" Acoustic Panel

Zintra 1/2" Panel boasts exceptional sound absorption capabilities for walls and ceilings. Use it as is or fabricate it into a designed solution. Measuring 110" in length, these join-free panels are easy to fabricate and install. Choose from a palette of 30 solid colors and 4 timber prints, ensuring effortless integration into any space.

NRC Rating	Directly Mounted: 0.45	With 2" (50mm) Air Gap: 0.85	With 6" (152mm) Air Gap: 0.90	With 12" (305mm) Air Gap: 0.95
Aw Rating	Directly Mounted: 0.30	With 2" (50mm) Air Gap: 0.75	With 6" (152mm) Air Gap: 0.95	With 12" (305mm) Air Gap: 0.95
Suggested Installation	Adhere to substrate using contact adhesive or Liquid Nails. Panel can be mechanically fixed using details similar to glass fittings. Check out the Technical Documents on our website to download the Installation Guide for more details.			
Additional Comments	Etch is a 1/8" (3mm) deep V groove. Not suitable as a free standing product.			
Customization	The Zintra Acoustic Solutions range is customizable to your project. Please get in touch with your local contact for details.			

## Organic Etch Panel

Zintra Organic Etch draws inspiration from artisan craftsmanship, seamlessly merging human creativity with the beauty of the natural world. Organic Etch panels add visual depth to interior spaces.

Available in a diverse range of designs and colors, each panel tells a story of simplicity, tactility, and imperfect perfection. Mix and match with Zintra Plain Panels to add design and pricing versatility for a cohesive and sophisticated look.

### Organic Etch Panel Specifications

Dimensions	48" (1219) mm x 108" (2743mm ) x 1/2" (12mm)			
Colors	Available in all 64 Colors, including Zintra Timber and Premium Prints. See <a href="#">p.11</a> , <a href="#">p.12</a> and <a href="#">p.13</a>			
NRC Rating	Directly Mounted: 0.45	With 2" (50mm) Air Gap: 0.85	With 6" (152mm) Air Gap: 0.90	With 12" (305mm) Air Gap: 0.95
Aw Rating	Directly Mounted: 0.30	With 2" (50mm) Air Gap 0.75	With 6" (152mm) Air Gap: 0.95	With 12" (305mm) Air Gap: 0.95
Suggested Installation	Adhere to substrate using contact adhesive or Liquid Nails. Panel can be mechanically fixed using details similar to glass fittings. Check out the Technical Documents on our website to download the Installation Guide for more details.			
Additional Comments	Not suitable as a free standing product. Organic Etch is imperfectly perfect and therefore while they are designed to be installed side by side, they are not seamlessly matched.			
Customization	The Zintra Acoustic Solutions range is customizable to your project. Please get in touch with your local contact for details.			

## Texture Panel

Zintra Texture offers subtle yet engaging 3-dimensional panel designs, each engineered to reduce echoes by altering sound reflection angles, making them perfect for noisy public spaces requiring a touch of flair.

Texture panels highlight the exceptional acoustic qualities of Zintra Acoustic Panels and showcase Zintra's impressive fabrication capabilities. With versatile designs, Texture will seamlessly integrate into both classic and modern settings. Mix and match with Zintra Plain Panels to add design and pricing versatility for a cohesive and sophisticated look.

Customization	The Zintra Acoustic Solutions range is customizable to your project. Please get in touch with your local contact for details.			

# Sculpted Panel

Zintra Sculpted Panels use shape and space to offer eye-catching interior design additions.

The signature 3/8" (9mm) groove detail adds depth and dimension, setting them apart as a sophisticated choice for feature walls or an eye-catching alternative to traditional art. Unlike the finer 1/8" (3mm) groove of Etch, Sculpted Panels command attention with their bold, progressive aesthetic, creating a visual statement that resonates with modern design sensibilities.

# Ceiling Features

Zintra Ceiling Features introduce a softness and sculptural allure to the practical acoustics of ceiling design. From striking geometric shapes to elegant floating elements, these Ceiling Features are ideal for creating standout focal points or adding a subtle touch, all while camouflaging unsightly fixtures and managing noise.

## Clouds

Crafted from pressure-fitted interlocking profiles, Zintra Clouds are available in an array of shapes and sizes for easy assembly and installation.

Clouds not only add dramatic flair to any space, but they also enhance acoustics through Zintra's powerful sound absorption qualities.

# Baffles

Master the art of sound with Zintra Baffles. Absorbing sound from multiple directions, these Baffles blend impact with elegance. Whether enhancing a focal point or an entire ceiling, they deliver a visual and acoustic masterpiece. With various designs available and thoughtful assembly and installation, Baffles provide an efficient and adaptable solution for improving acoustics to suit any space's needs.

DCXC  
Technology Center

# Baffle Systems

Zintra Baffle Systems masterfully absorb sound from multiple directions, combining modern aesthetics with decorative elements and a broad spectrum of colors and patterns.

Providing an innovative alternative to traditional mineral fiber lay-in systems, Baffle Systems offer the flexibility to be individually configured as a standout feature or installed to enhance the entire ceiling's visual charm. With refined assembly and installation, Baffle Systems provide an efficient and adaptable solution for improving acoustics to meet any space's demands. By diminishing noise levels and boosting speech clarity, our sound baffles facilitate a calm and appealing environment.

See <b>p.204</b> for hardware detail. Check out the Technical Documents on our website to download the Installation Guide for more details.
Customization	The Zintra Acoustic Solutions range is customizable to your project. Please get in touch with your local contact for details.

# Acoustic Sticks

Zintra Sticks offer creative freedom and functionality in a lightweight, versatile, and easy-to-fabricate format. Perfect for feature walls, curved walls, space division, and even seamless progression from wall to ceiling, Sticks provide a vast range of possibilities to transform any area into an extraordinary, acoustically optimized environment.

ACOUSTIC STICKS

## Sticks Bundles

Available as a complete system, Zintra Sticks Bundles' unique design ensures effective sound absorption while adding a modern, dynamic element to your space.

Zintra Sticks are available in two profiles that can be mounted on walls or ceilings in either landscape or portrait orientation. Add on the purpose-designed Sticks Transition to ensure seamless integration at corners from walls to ceilings, and use Sticks Trim to provide a neat finish around doors, windows, and GPOs.

## Quadratic Sticks

Zintra Quadratic Sticks are designed to enhance acoustics through the innovative use of a quadratic residue sequence.

Each pattern comprises eight sticks, repeating systematically to optimize acoustic outcomes. Variable heights strategically enhance sound absorption while minimizing reverberation, ensuring more evenly distributed sound energy throughout the room. This reduces echoes and creates enhanced speech clarity.
