## DIMENSION PANELS

TEXTURED DECORATIVE PANELS

# DISCOVER A NEW DIMENSION OF TEXTURED DESIGNS

With **Dimension Panels**, creating distinct, one-of-a-kind spaces is attainable, affordable, and just plain fun. With thousands of pattern and finish combinations to choose from, watch as spaces go from ordinary to extraordinary.

Each Dimension Panels style is deeply textured with a specialty mold, forming dynamic shapes and illusions ranging from abstract to geometric to whimsical. MDC Dimension Panels offer designers the opportunity to let their creativity shine, allowing inspired spaces to come together with ease and flair.

## Made in the USA

Our Dimension Walls and Ceilings line is proudly made and manufactured right here in the USA, shortening delivery windows, reducing overall costs, and so much more.

## Zero Waste

Specifying with Dimension Walls and Ceilings means you are endorsing a product that contributes zero waste back into the environment. With each new panel made, any remains are then used for the next panel production.

## No Order Minimum

Dimension Walls and Ceilings requires no set order minimum, granting unmatched flexibility and convenience. Order just one panel, a few for smaller projects, or a robust order for a larger install.

# SCULPTING SPACES

Enhance any space with Dimension Panels, effortlessly adding depth and intrigue. Within each wall and ceiling subcategory, you'll find a diverse range of textured panels tailored to your precise requirements. Whether it's creating subtle layers on your walls or artfully embossed ceilings, finding the perfect design expression is a seamless process.

PRODUCT SPECIFICATIONS

**Content:** High-Impact Thermoplastic.

**Sheet Size:** 4' x 8' Wall Panels - some are available in 4' x 10'.

**Low Profile Seam:** Patterns are designed with overlapping, bead and button, or butted seams to provide the cleanest transition possible between panels.

**Thickness:** 1/32" (.030) prior to forming. This is a dimensional product. Actual thickness varies.

**Weight:** 8 lb per 4' x 8' sheet.

**Custom Finishes:** Available upon request. Minimums apply.

**Abrasion Resistance:** Taber ASTM D1044

- Patina with Protective Film - 4,700\*
- Solid Color - 5,000\*
- Eco - 1,000\*
- Painting the finish does not have the stain and abrasion resistance properties of the other finishes but it does retain impact resistance.

\*No Sign of Wear

**Impact Resistance:** ASTM D5420 > 2 inches lbs per mil of thickness.

**Solvent Resistance:** 50 MEK.

**MEK Double Rubs/Crockmeter:** Withstands 70 cycles.

**Humidity:** 12 hrs 96-100% RH @ 104°F (40°C) on MDF.

**Heat Resistance:** Up to 140°F (60°C).

**UV Stability:** Minimum 100 hours.

**ISO Certification:** Manufacturing facility is 9001:2000 certified.

**Fire rated:** Dimension Panels meets the ASTM E-84 Class A fire rating.

**Installation:** Refer to mdcwall.com for complete installation instructions.

**Trim Molding:** Contact your local Account Executive or Customer Care for more information. Deeper patterns may require an alternate trim.

Made in the USA.

# DIMENSION CEILING DESIGNS

Add impact and interest to your ceilings with three-dimensional panels. An eye-catching metallic finish will create a bold ceiling that is the focal point of the room.

Dimension Ceiling tiles are opaque in finish and can be placed below existing ceiling tiles to instantly update a space. Thermoplastic square and rectangular panels are available in a wide range of patterns, finishes, and styles. MDC offers three ceiling tile options to accommodate most common grid systems.

# DIGITAL PRINTING

Digital printing allows for limitless design or branding possibilities. Incorporate your logo or chosen imagery into one of our print-friendly Dimension designs for a distinct, customized look rich in textured pattern.

- PVC-Free Available 
- Digital Printing Options 
- Made to Order 

# CUSTOM DESIGNS

With the Dimension Walls and Ceilings Custom Program, designs are limited only by your imagination. Our Custom Program allows customers to create or design something unique, or incorporate a company logo or branding onto a Dimension texture with ease.

MDC can design bespoke solutions for hotels, restaurants, fitness centers, corporations, hospitals, healthcare institutions, boutiques, retail stores, or anywhere you want to create your own image.

We want all of our customers to feel confident that they're making better choices for tomorrow. PVC-free options allow customers to enjoy all of the same benefits of Dimension Panels, including: easy installation, flexibility, durability, high-quality appearance, and the ability to be bent and/or die-cut to meet designer specifications.

### KEY

- ✔
- For wall panel designs; available in size.
- 1
- Special instructions required. Please call customer service.
- 2
- Panels create a unique pattern when each panel is rotated and placed together.
- 3
- You can get a “checkerboard effect” by alternating between V (Vertical) and H (Horizontal) panels.
- 4
- Some minimums/multiples may apply.
- 
- BIO Edge
- 
- Bead + Button Style.
- A
- Available in Acoustic/Perforated. Some patterns with this feature may be slightly less defined. Special finishes available, minimums apply.
- ||||
- Wainscot Panel

# INSTALLATION OVERVIEW

## STORAGE

Store flat and acclimate the panel in the same environment for at least 24 hours before installation.

## CUTTING

Dimension Panels can be easily cut using scissors or a utility knife.

## ADHESIVES

Different adhesives and application techniques can be used to apply Dimension Panels. Please see MDC's technical information on our website ([mdcwall.com](http://mdcwall.com)).

## TRIM MOLDING

Dimension Panels trim, millwork, or other commercial trim pieces are available for finishing the panels.

## CLEANING & CARE

Clean only with warm, soapy water. Never use abrasive cleaners or anything with harsh chemicals. A high quality auto polish may be used to help protect the finish.

## PAINTABLE FINISH

Use an adhesion promoting primer and apply a commercial grade latex or oil based paint to create any color on the Dimension Panels.

# HOW TO ORDER

## SPECIFY

Pattern Name  
Color Name  
Size  
Type of Installation  
(Wall, Fixtures, Columns or other)

## NOTES

Some Dimension Panels patterns are available in horizontal or vertical patterns.

Dimension Panels are used for many different applications. MasterFormat (CSI) numbering will vary.

## CONDITIONS & WARRANTY

Inspect all Dimension Panels before installing. Dimension Panels are intended for interior applications. Completely test the adhesives and methods of installation to ensure a quality finished result. Any product replacements will be subject to inspection and replaced on an equal basis. Slight imperfections and color variations can occur between different run lots. MDC is not responsible for installation or other costs involved with using our products.

## SAMPLES

Due to printer, picture, renderings, and digital screen limitations, patterns and finishes shown in this catalog may not accurately reflect Dimension Panels textures and colors. Request samples to be verified and approved prior to specification and final application.

## EDGE OVERLAP/BUILT-IN OVERLAP (BIO)

Most Dimension Panels feature an Edge Overlap (BIO) on two sides of each panel. This feature minimizes the appearance of seams and makes installation easy with no need for trim or caulk between the panels. Wall panels with the overlap have a flat edge that extends beyond the texture across the top and right side.

# ACCESSORIES & TRIM

## GridMax™

GridMax™ is a patented, snap-on grid cover designed to make ceiling grid systems invisible. It is cost effective and doesn't rust or scratch. GridMax™ is sized to fit over 15/16" T-bar suspension grid systems. GridMax™ profiles are available for many finishes. Please contact MDC Interior Solutions Customer Service for more details about your specific needs. Mains, tees, and moldings are necessary to cover the entire grid system. They are packaged together to complete 100 square feet of ceiling, and sold separately to use as needed. Contact your personal MDC Account Executive for available finishes

15/16" (24 mm) GridMax™ in Paintable

Applying GridMax™ Over T-bar Suspension Grid System

GridMax™ in Moonstone Copper

It's simple; measure the perimeter and calculate the square footage.

Room Square Footage ÷ 8

## Hold-Down Clip System for Ceilings

We also offer an easy-to-install, hold-down clip system to help support lay-in ceiling tiles. This clip system attaches to the top of any existing grid to hold (low or high profile) lay-in ceiling tiles in place, preventing the tiles from flipping out of place from air leaks and creating a smooth visual.

## Dimension Panels Trim

Dimension Panels Trim is available to join and finish Dimension structures. Edge J-Trim, Divider Trim, Inside Corners and Outside Corners are available in 8' lengths and can be easily cut to size. Trim profiles are available for many finishes. Please contact MDC Customer Care for more details about your specific needs.

The Edge J-Trim simply slides onto the cut edge of the panel. Most installations use decorative wood or metal moldings, but if these elements are not used, Dimension Panels Trim will finish the edges nicely.

## Dimensions 3" Corner Guard

Dimensions 3" Corner Guard is designed to protect corners and offer a decorative finish to applications in high traffic areas. Available in Argent Bronze and Argent Silver, these corner guards are flexible, durable, easy to install over Dimensions Wall Panels and can be easily cut to size.

Corner Guard 3"
