DIMENSION WALLS

INTERIOR SOLUTIONS

ELLIPTICAL / NEW PENNY

CRACK ME UP / RUBBED BRONZE

After more than fifty years in the commercial interiors industry, MDC has earned a reputation for innovative products, value and service.

MDC's portfolio includes eco-friendly products, digital imaging solutions; paint/coatings; handcrafted wall designs; dry-erase coatings; decorative wall panels; luxury textiles; foils; grasses; woods, vinyls, and architectural acoustic solutions. Our company is known for its ability to produce solutions that meet the needs of the design community.

MDC is actively involved in product research and development, as well as, the ongoing and extensive training of our associates. These efforts keep us in the forefront with new materials and technologies. In addition, our team of sales representatives is known to be among the most knowledgeable in the industry.

At MDC, we're constantly expanding our portfolio to keep it fresh. We've learned to pay attention to quality, durability, ease of installation, and sustainability in addition to color, texture and visual interest.

We offer a range of products that help our clients achieve their goals and realize their design vision in new construction, renovation, hospitality, healthcare, retail, education, or corporate settings.

VVALL PANELS

Use textured, impact-resistant, decorative panels to add visual interest with an edge to your space.

From focal point to casual mood-setting, our 4' x 8' textured wall panels are available in a variety of textures and colors. Some panels are available as 4' x 10' sheets (See the Quick Reference Guide on page 32). Panels can be applied to flat or curved surfaces, walls, columns and more. Lower-profile designs provide maximum durability for high traffic areas.

FEATURES

- Thousands of designs and color combinations are available, while our custom program allows for endless design opportunities.
- Fabrication and installation of Dimension Walls is easy.
- Scratch and stain resistant film is added on many Dimension Walls finishes.
- Lightweight and flexible. Sheets can be rolled for shipment or used on curved walls or columns.
- Fire Rated. Dimension Walls meets the ASTM E-84 Class A fire rating.
- Durability. High impact, chemical and stain resistant.

- Paintable. Create your own custom color with our paintable finish.
- Custom designs. Looking for your own design or logo? Let our MDC sales representative help you create a design for your next project.
- Unlimited flexibility. Combine any pattern with any of the 46 standard finishes to create a solution that meets your design needs.
- Made with pride in the USA in an ISO certified facility.
- Consult with your local sales representative with specific questions, technical requirements or project needs.

PANEL DESIGNS

Indicates low-profile panels for areas of high-traffic

Our inspiring array of panel designs ranges from abstract to geometric to whimsical.

With Dimension Walls you can design inspiring spaces with great ease. These 3-dimensional wall panels offer the opportunity to transform a space in a truly innovative, completely unique way.

Whether a contemporary or more traditional design is required, the design and finish combination that Dimension Walls offers will suit most needs.

Most panels also feature the BIO (Built In Overlap), a unique seam system that makes installation easy and creates less visible seams.

CUSTOM DESIGN

With Dimension Walls Custom Program, designs are limited only by your imagination. Our Custom Program allows customers to create or design something unique; or to incorporate their company branding/logo onto a Dimension Walls texture.

MDC can design custom solutions for hotels, restaurants, fitness centers, corporations, hospitals, healthcare institutions, boutiques, retail stores or anywhere you want to create your own image.

For your textured ceilings solutions please see our "Dimensions Ceilings Textured Decorative Ceiling Tiles" offering by visiting mdcwall.com/dimensionceiling.

Contact a MDC sales representative to discuss your vision and have a custom design created for your next project.

DIGITAL PRINTING

Digital printing allows for your logo or image to be printed on most Dimension Walls. This creates a distinct customized look to the rich textured patterns.

CUSTOM ART / TOO HIP TO BE SQUARE

PROJECT:

COLTIVARE RESTAURANT AND CULINARY CENTER, ITHACA, NY

DESIGN BY:

Ramsgard Architectural Design, Skaneateles, NY

OBJECTIVE/SCOPE:

To create a feature wall of industrial tire treads that have both dimension and variation. In addition, could be installed on an inverse curved wall.

LEAD-TIME:

8 weeks from the initial design to delivery

SOLUTION:

Well within their budget and lead time MDC aided the design of a custom tire tread pattern manufactured onto 2' x 4' panels that allowed reverse hang application. This enabled the finished product to have a varied layout with different tread styles within the panels. The matte black finish selected by the architect was further enhanced by a local faux finish artist, adding the final touches to this unique installation.

EDGE OVERLAP / BUILT IN OVERLAP (BIO)

Most Dimension Walls feature an Edge Overlap (BIO) on two sides of each panel. This feature minimizes the appearance of seams and makes installation easy with no need for trim or caulk between the panels. Wall panels with the overlap have a flat edge that extends beyond the texture across the top and right side.

High Traffic Patterns – low dimension and solid color.

HURLEY / ECO BLACK

HOW TO ORDER

SPECIFY

Pattern Name
Color Name
Size
Type of Installation
(Wall, Fixtures, Columns or other)

NOTE

Some Dimension Walls patterns are available in horizontal or vertical patterns.

Dimension Walls are used for many different applications, MasterFormat (CSI), numbering will vary.

CONDITIONS & WARRANTY

Inspect all Dimension Walls products before installing. Dimension Walls are intended for interior applications. Completely test the adhesives and methods of installation to ensure a quality finished result. Any product replacements will be subject to inspection and replaced on an equal basis. Slight imperfections and color variations can occur between different run lots. MDC is not responsible for installation or other costs involved with using our products.

SAMPLES

Due to printer, picture, renderings, and digital screen limitations, patterns and finishes shown in this catalog may not accurately reflect Dimension Walls textures and colors.
Request samples to be verified and approved prior to specification and final application.

INSTALLATION OVERVIEW

STORAGE

Store flat and acclimate the panel in the same environment for at least 24 hours before installation.

CUTTING

Dimension Walls can be easily cut using scissors or a utility knife.

ADHESIVES

Different adhesives and application techniques can be used to apply Dimension Walls. Please see MDC's technical information on our website (mdcwall.com).

PAINTABLE FINISH

Use an adhesion promoting primer and apply a commercial grade latex or oil based paint to create any color on the Dimension Walls.

EDGE OVERLAP - BIO (BUILT IN OVERLAP)

Two contiguous sides of each panel have an Edge Overlap (BIO) for overlapping consecutive sheets. This allows for a less visible seam. See diagram on page 33.

TRIM MOLDING

Dimension Walls trim (see page 37), millwork or other commercial trim pieces are available for finishing the panels.

CLEANING & CARE

Clean only with warm, soapy water. Never use abrasive cleaners or anything with harsh chemicals. A high quality auto polish may be used to help protect the finish.

PRODUCT SPECIFICATIONS

- Content: High Impact Thermoplastic.
- Sheet Size: 4' x 8' Wall Panels some are available in 4' x 10' (All UPS Shippable).
- ✓ Low Profile Seam: 1/2" overlap feature on two sides provides a trim free, low profile seam. (Some Impact patterns may not have the overlap - refer to page 33).
- Thickness: 1/32" (.030) prior to forming. This is a dimensional product actual thickness varies.
- Weight: 8 lbs per 4' x 8' sheet.
- Custom Finishes: Available upon request. Minimums apply.
- Fire Rated: Dimension Walls meets the ASTM E-84 Class A fire rating.
- Abrasion Resistance: Taber ASTM D1044.
 - Patina with Protective Film 4,700*
 - Solid Color 5,000*
 - Eco 1,000*
 - Painting the finish does not have the stain and abrasion resistance properties of the other finishes but it does retain impact resistance.
 - *No Sign of Wear

- ▼ Impact Resistance: ASTM D5420 >2 inch lbs per mil of thickness.
- ▼ Solvent Resistance: 50 MEK.
- MEK Double Rubs/Crockmeter: Withstands 70 cycles.
- Humidity: 12 hrs 96-100% RH @ 40 degrees Celcius on MDF.
- Heat Resistance: Up to 140 degrees Fahrenheit (60 Celsius).
- VV Stability: Minimum 100 hours.
- ▼ ISO Certification: Manufacturing facility is 9001:2000 Certified.
- Made in the USA.
- Installation: Refer to mdcwall.com for complete installation instructions.
- Trim Molding: Molding is available to finish edges where required. See pages 26-28 for specific trim finish availability. Deeper patterns may require an alternate trim.

DIMENSION WALLS TRIM

Edge J-Trim, Divider/Joint Trim, and Inside and Outside Corner Trims are available in 8' lengths and can be easily cut to size. Deeper patterns may require an alternate trim. Dimension Walls can also be finished with other aluminum, metal, or wood trim.

JST4501-4540 Divider/Joint Trim Length: 8'

OCT2501-1540 Outside Corner Trim Length: 8'

ICT1501-1540 Inside Corner Trim Length: 8'
