# HANDCRAFTED QUALITY

Each design is individually made by our talented group of artisans.

Metallic foil, dynamic textures, and slight pattern variations are what make these Handcrafted patterns instant favorites.

## QUALITY CRAFTSMANSHIP:

**HANDMADE** Each yard is handmade and inspected by a seasoned artisan to create a truly unique artwork. Multi-layered paints create a dazzling visual effect featuring hints of metallic shine.

**MADE TO ORDER** All designs are made to order and can be customized for color, texture, and design. Low minimum quantities make ordering easy starting at 30 yards. Reorder any handcrafted or custom design with ease.

# TURN INSPIRATION INTO ART

Let your imagination run wild! Incorporate design motifs through texture, foil, and other specialty effects for a truly unique look.

MDC can help you achieve your vision. The breadth of our portfolio of wallcoverings promises to provide the solution that delivers your vision.

Make your space a stunner with a selection from our portfolio of handcrafted and metallic foils. Whether you choose a textured foil or a hand-embellished, raised-print treatment you're sure to create an environment that commands attention and evokes admiration.

## SINGLE SOURCE PROJECTS

Find the perfect wallcoverings for every space through MDC's extensive and highly customizable collections. From luxe textures to vivid colors, our product lineup has never been more robust.

The interior designers for this restaurant also worked on a custom digital print for their private dining room (pictured right) that was inspired by classic Spanish literature.

Our Digital Studio's technology and customer service make it easy to design large-scale, one-of-a-kind installations. We're part of your team and we'll work with you through the entire process. Our goal is to bring your imagination to life, and we can even help you make it larger than life!
